OUR PURPOSE

...to pioneer innovative healthy food of great taste for all generations

VISION

...to shape the future of healthy food around the world

VALUES

- Innovation
- Long Term Perspective
- People Care & Development
- Ownership
- Winning mentality

Baby Food Factory (BFF), is based in Belgrade, Serbia with global ambition to shape the future of healthy food. We are present in 28 global markets and 35+ international retailers.

We began as a start up back in 2018 having healthy eating habits of babies as our focus. Just like any other parent, we too understand our work very seriously. We support parents in their most wonderful role and most important calling. We help them by making delicious healthy food for their little ones.

We offer wide portfolio of products addressing the specific needs of babies. We have one of the newest modern facility in Europe with state-of-the-art equipment and advanced bio-technology process. We feature one of the most advanced R&D center.

Those who put babies in the center of attention, bear great responsibility. That is the reason why all our products are of superior quality, supporting a healthy diet. In recent years BFF has entered new territories, expanding the portfolio to kids & adults with the same vision in mind.
